Bantul, Daerah Istimewa Yogyakarta

Software Engineering Technology undergraduate at Universitas Gadjah Mada with practical experience in frontend engineering, modern web applications, and mobile systems development. Proficient in architecting responsive, accessible, and type-safe systems using React, Next.js, React Native, and TypeScript. Experienced in translating complex functional requirements into production-ready platforms, managing state with Zustand, and collaborating across agile teams to deliver reliable software solutions.

Work Experiences & Featured Projects

Desiltrace - Sleman, Daerah Istimewa Yogyakarta **2026**
Lead Developer | desiltrace.web.id
A civic data transparency platform providing Yogyakarta citizens with verified socio-economic decile insights and data correction workflows.
- Architected a fullstack civic transparency portal using Next.js 15, TypeScript, Tailwind CSS, and Neon PostgreSQL.
- Implemented an interactive 16-digit NIK verification interface and welfare category simulator to demystify social assistance decile distributions.
- Engineered structured objection and data correction tracking flows between citizens and municipal welfare administration departments.

Simonev Renaksi - Yogyakarta, Indonesia **2026**
Fullstack Developer | simonev-renaksi.vercel.app
An integrated monitoring and evaluation system engineered for BBPPKS Yogyakarta to oversee budget allocations and action plans.
- Built responsive analytics dashboards and data entry modules utilizing Next.js App Router, TypeScript, Prisma ORM, and NextAuth authentication.
- Structured multi-level authorization workflows and automated audit reporting to track division recommendations and progress milestones.

Pemilwa KMTEDI - Sleman, Daerah Istimewa Yogyakarta **2026**
Lead Developer | kmtedi-pemilwa.vercel.app
A high-integrity digital election platform for the Department of Electrical Engineering and Informatics (KMTEDI) Student Union.
- Engineered an automated voter authentication pipeline using institutional UGM email one-time password (OTP) verification with Nodemailer.
- Constructed real-time voting interfaces, tamper-resistant ballot accounting with Supabase PostgreSQL, and an administrative control panel.

Hongfilms - Indonesia **2025 - Present**
Frontend Developer & Co-Founder | hongfilms.com
An independent filmmaking ecosystem platform showcasing cinematic productions, crew portfolios, and production workflow suites.
- Developed responsive web platforms and camera clapper logging tools utilizing React, Next.js, TypeScript, and Tailwind CSS.
- Designed offline-first clapper and take management tools supporting slate auto-incrementing, multi-cam logs, and PDF/CSV reporting.

Rongsok.in & Other Web Platforms **2024**
Frontend Developer | rongsokin.vercel.app · somnia.page · simpondokk.vercel.app
- Engineered geolocation-based waste marketplace interfaces (Rongsok.in), modular type-safe web systems (Somnia), and school portals (Simpondok).

Education Level

Universitas Gadjah Mada - Sleman, Daerah Istimewa Yogyakarta **Aug 2024 - 2028 (Expected)**
Bachelor of Applied Computer (S.Tr.Kom) in Software Engineering Technology (TRPL), Sekolah Vokasi

SMA Negeri 1 Kasihan - Bantul, Daerah Istimewa Yogyakarta **Jun 2021 - Jun 2024**
Senior High School, Mathematics and Natural Sciences (MIPA)

Organisational Experience

Association of Software Engineering Technology Students (ASSETS TRPL UGM) **Mar 2024 - Dec 2025**
Staff of Talent & Interest Division (Mikat)
- Conceptualized and executed student skill development programs in academic software disciplines and national hackathon preparations.

KMTEDI SV UGM - Sleman, Daerah Istimewa Yogyakarta **Mar 2024 - Present**
Staff of Strategic Studies & Action (Kastrad)
- Facilitated academic policy advocacy, student aspiration surveys, and strategic evaluations for over 800 active department students.

Jamaah Vokasi Al-Alim SV UGM - Sleman, Daerah Istimewa Yogyakarta **Jan 2024 - Dec 2024**
Staff of Entrepreneurship Division
- Managed fundraising programs, merchandise marketing strategies, operating cash flow records, and logistics inventory.

Skills, Achievements & Other Experience

- **Achievements (2026):** 2nd Runner Up (Juara Harapan 2) in Web Development - Olimpiade Vokasi Nasional (OLIVIA 2026), Universitas Negeri Surabaya (UNESA).
- **Technical Skills:** React, Next.js, React Native, TypeScript, JavaScript, Tailwind CSS, HTML5/CSS3, Node.js, Zustand, PostgreSQL, Supabase, Prisma ORM, RESTful APIs, SQLite, Git/GitHub, Vite, Figma.
- **Specializations & Architecture:** Frontend Architecture, Component-Driven UI, Responsive Design, Offline-First Architecture, Automated QA (Selenium, Cucumber).
- **Volunteer & Operations:** Technical Operations Crew - Hackathon UGM (Supported participant live demos and server infrastructure).
